ULACIT Costa Rica

WHO WE ARE

ULACIT –Latin American University of Science and Technology, is a bilingual university located in San José, Costa Rica. For nearly 24 years, ULACIT has been providing culturally immersive, academic experiences to students from around the world in Costa Rica.

We offer 53 undergraduate and 42 graduate programs in the Schools of Business Administration, Engineering, Information and Communication Technologies, Film and Animation, Art and Design, Health Sciences, and Social Sciences. ULACIT attracts international students and faculty. As many as 9% of our students are international of 26 different nationalities. Our offering of courses taught in the English language is ample: 69 taught regularly at our San José and Escazú campuses in the fields of Liberal Arts, Business, Political Science, and International Relations.

All our teaching strategies are project-based, with no traditional exams. Learning is founded on inquiry, research, problem-solving and service learning experiences, under the Teaching for Understanding (TfU) framework, developed by Harvard University's Project Zero.

ULACIT has been ranked, for the past eight consecutive years, as the best private university in Costa Rica and the region.

LET US TAKE CARE OF YOUR PROGRAM DETAILS

Do you want to develop a custom or faculty-led program in Costa Rica, but don't want to deal with the logistics of planning and designing? Let us take care of the details. We partner with faculty to create short-term, faculty-led programs that resonate with a broad spectrum of students. Whether you want to offer a course taught by your own faculty or a cohort arrangement in an area of interest, ULACIT provides the expert academic support, resources, and flexibility you need to create your own custom program.

Our Global Education Office (GEO) staff will work closely with you to develop programs that satisfy your specific requirements, including curriculum, complementary co-curricular activities, and comprehensive support services, and best suit the needs of your institution and your students. Customize your program features to fit within your students' budget. Just share your vision with us, and we will use our expertise, knowledge, and resources to make it happen.

ULACIT

customizes, adapts, and designs academic programs that meet the individual needs of institutions, third party-providers, faculty-led groups, or student groups. ULACIT offers additional services to insure that your students have a unique global experience in Costa Rica. Services include trips to local institutions, site visits, guest speakers, transportation, housing, field trips throughout Costa Rica and various other services.

WHAT OUR UNIVERSITY PARTNERS HAVE TO SAY:

ULACIT's most important contribution to the success of the peace studies course was the knowledge and experience in working with international students who are coping with learning new academic material in a totally unfamiliar environment. The staff helped us maintain a delicate balance between academics, recreational and cultural opportunities, and that critical time needed to rest and absorb the experience. We were also very impressed with ULACIT's service learning program.
